

Asset Labels

Stratix Australia Pty Ltd is proud to present our industry-leading Asset Label programme. We feature a number of options to ensure your assets are labeled with the best possible solution.

VOID Labels: Silver Mylar labels that will leave the word “VOID” behind if removed. This leaves evidence of tampering & renders the labels unusable. They come in two sizes:

60mm x 25mm : \$0.25 per label

40mm x 15mm : \$0.20 per label

Clear, over-laminate labels are also available for either size. These are recommended for items that will experience a lot of human handling, rubbing, or friction. These are hand applied by the customer and are an additional \$0.10 per over-laminate label.

All orders are subject to a \$20.00 set-up charge (all orders) & a \$25.00 logo fee if a corporate logo is included in the artwork.

Photo-Anodised Aluminium Tags: These are ideal for outdoor situations & where maximum durability is essential. Tags can be printed in a single or full-colour, and can include text, logos, barcodes, sequential or variable information.

Adhesive Backing or hole punches are also available. Please call us at 02 9624 1999 today!

Note: All asset/tag orders are subject to a \$75.00 minimum. GST & freight are additional.
